

N150PBP

PIT BOSS REFUELING NOZZLE WITH PLUG

The Pitboss diesel fuel nozzle is a perfect fit for a more economic solution. The latching device of this nozzle is most forgiving model in muddy or severely dirty environments. Fewer internal components and a compact housing make this one of the lightest diesel nozzles available. With all metal construction, piston driven engagement, and a familiar non-slip powder-coat finish.

N150SLP

SURELOC DIESEL FUEL NOZZLE

Proven reliable even in the harshest environments and is customizable to meet specific needs. Its durable, allmetal construction and thick wall main housing makes it optimal for heavy duty operations. The latching mechanism consists of twelve stainless steel ball bearings for a secure latch. Available with either piston or diaphragm control shut-off and two flow rate and inlet options, it is our most versatile nozzle.

**S150, S512, S200, S215
STRAIGHT HOSE SWIVELS**

Straight hose swivels with all aluminium construction.
